

Sandbox Solutions Analysis Questions

By: Ryan Stewart

Analyzing the information provided:

1. What is the domain address to which the DNS request was made? (Check the "DNS Requests" section.)

HTTP Requests					Connections					DNS Requests					Threats				
0					0					2					0				
NETWORK	Timeshift		Status		Rep		Domain												
	1887 ms		Requested				www.xmlformats.com												
	2889 ms		Requested				www.xmlformats.com												

2. According to the sandbox analysis result from the given URL, what is the name and extension of the file responsible for the malicious activity on the system? (File Size: 30 KB) (Check the "Dropped Files" section)

^	2024-02-11	29 / 70	Win32 DLL	DotSetupSDK.dll
	SHA-256	e8590980e8f3d57e8b2fe107ef2fbce0020a2eac018a64a007817888ebf04c54		
	File Size	30.00 KB
